December 2019

2019 Wrap Up...

2019 has been a busy year for each member of staff, and we have expanded our team that will hopefully bring new life into our work. I would like to take this opportunity to thank you all for the support and loyalty that you have shown the company over this past year.

It has been a year of more ups than downs and lessons learnt, and we have formed respectful work relationship, not only amongst us but with our clients and suppliers.

Next year we are hoping to make some big changes within RTC Control Systems (Pty) Ltd and would like all the staff to assist and help grow the company.

We have had many accomplishments this year, but the one that stands out for me is the winning of the ECA Industrial Installation of the year and the progress that we have made with our offices.

Happiness does not come from doing easy work but from the afterglow of satisfaction that comes from achievement of a difficult task that demands our best.

Should you have any suggestion of how we could improve our newsletter, please do not hesitate to contact me, so we can discuss your ideas.

Kind Regards

Natasha Krugel

SKILLS DEVELOPMENT

We have had a remarkable year of training and look forward to next year to broaden our knowledge and enrich our staff's knowledge to new limits

Employee of the year!

The whole team would like to express our gratitude to you for being an inspiration to us. We appreciate all the knowledge and skills you've imparted to us. You inspired us during difficult times when we needed words of encouragement and been the driving force to always improve on ourselves. It's not easy to find a true leader to look up to, so it's been a wonderful experience to work with a great boss like you!

True Leaders don't create followers, they create more leaders, and as I stand back and look at our RTC team I am filled with pride and excitement to see all the future leaders that will stand up to take on the challenge to take your business into the future.

*Thank
you!*
